JJIF Convention and the work panels

Dear friends,

The preparations for JJIF convention and general assembly are becoming more and more concrete.

To prepare the panels, work groups, discussions and decisions we want to use a closed forum. <http://ju-jitsu.boards.net/>

This online solution can guarantee that everybody has the chance to follow every discussion in complete and will not miss information or some emails.

It means as well that the responsibility to be informed belongs to everybody itself.

Only persons getting authorized by their national federation (or by position in JJIF) will get access to the forum. The authorization means as well that this person is allowed to represent the National federation at least in the dedicated subject he/her works in. NF's can register more persons especially for the different work fields.

Decisions cannot be made in the forum but the results will be the base for the decisions of panels, the board and finally the General Assembly.

A disciplined discussion with clear statements is very important to make this work. Misuse will lead to deletion of posts or even banning from the forum. We reserve the right to moderate the forum and especially restructure threads.

Please register the delegates of your country in the attached EXEL sheet and send this to JJIF General Secretary Dana Mortelmans (dmurgescu@gmail.com).
